User Administration Area

Navigating the Administration Area

This is a service where an administrator (Head Teacher / Coaching Director) or individual customer can manage their individual License or number of Licenses being used by staff. It is an area that lists where each License is held and shows the ‘Mac’ address of the device it is associated with. To enter this area Log In using your Movement Dynamics username and password.

Multiple License Administration

Those organisations purchasing multiple licenses for their staff will receive the email that denotes where to go to for the device Player (PC/Mac/Android/Apple/SurfaceRT). This email will contain the one License Code for multiple use. The administrator should send the email to each of the staff who will process the installation and download on their device. Each person must enter a different ‘Registered by’ username while using the same License code. These details will become logged on the administrators Movement Dynamics Administration Area on their computer in the SUMMARY area.

Profile Area

This area lists your details and also shows License code associated with your Movement Library Player.
